

# BAADER UFC

## UNIVERSAL FILTER CHANGER

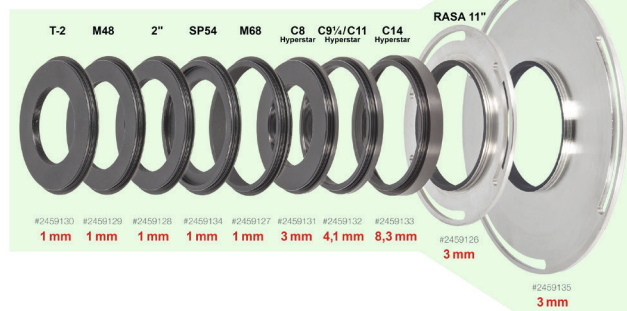

### AVAILABLE CAMERA-ADAPTERS (ATTACHED BY EIGHT SCREWS)

### BAADER UFC FILTER BASE (S70 DOVETAIL)

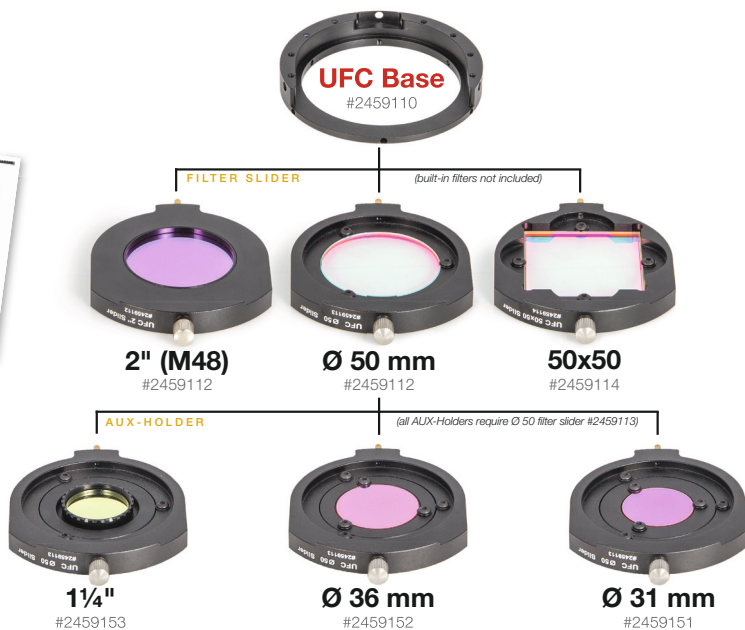

### AVAILABLE TELESCOPE-ADAPTERS (ATTACHED VIA S70 DOVETAIL)

## SHORTEST POSSIBLE BACKFOCUS FOR ALL TELESCOPES AND CAMERA LENSES

- most modular filter changer with the widest variety of adapters, to use any filter with any camera or eyepiece on every telescope or camera lens
- choose matching adapter-plates easily and cost effectively to mount onto the ever same filter chamber, to cope with your ever changing photographic and visual equipment
- filter sliders available for mounted 2" filters (max. 6mm height - LPFC), as well as unmounted 50.4 mm round and 50x50 mm square filters
- the Ø 50mm filter slider (#2459113) accepts insets for various AUX filter holders, to take up cell mounted 1¼" or unmounted 31 and 36 mm filters
- all filter sliders are kept in place by means of a tunable magnet, to adjust the retaining force and to assure exact repositioning of the filter for repeatable flats.
- filter sliders feature an adjacent brass pin to enable an effortless quick eject of the filter slider with a light push, not extending force on the telescope
